Content

Komm mit! Level 2, second of a three level program that offers an integrated approach to learning. The Komm mit! format allows students to achieve success and will appeal to all types of learners. Presentation and practice of functional expressions, vocabulary, and grammar structures are interwoven with cultural information, language learning tips, and realia to facilitate learning and teaching. Erste, Zweite, and Dritte stufen are the core instructional sections where most language acquisition will take place. Communicative goals in each chapter center on functional expressions presented in So sagt man das! boxes and are supported by material in Wortschatz, Grammatik, and Ein wenig Grammatik sections.

Activities following these features progress from controlled to open-ended practice where students are able to express themselves in meaningful communication. Culture is integrated via the location opener that precedes every three chapters. Language instruction begins with Los geht's video story, the comprehensible input that models language in a culturally authentic setting. Landeskunde interviews conducted throughout the German-speaking world on related topics. Throughout the chapter Ein wenig Landeskunde helps students gain knowledge and understanding of other cultures

Student Experiences

Komm mit! encourages students to actively learn German and to understand culture. The

Video Program/DVD Tutor, Interactive Tutor, and Online Editions bring the language and culture to life for students through diverse, interactive technology. In the Student Edition, each chapter is set somewhere in the German-speaking world where students see a slice of life from that location and then internalize the experience via engaging, thought-provoking activities. The Ein wenig Landeskunde feature in every chapter gives students insight into the culture while Landeskunde introduces students to people from different countries who talk about topics related to the chapter

Assessment

Komm mit! offers assessment options that address different needs. All test activities are related to the chapter theme and direction lines provide a context for each test activity. The Assessment Program consists of two quizzes per chapter per chapter, chapter tests that are skills-based and assess the material presented and practiced in the entire chapter, speaking tests for each chapter, midterm and final exams, and alternative assessment:

Organization

Every three chapters is preceded by the location opener, which introduces a new location and the culture of that location. Erste, Zweite, and Dritte stufen are the core instructional sections which feature: functional expression boxes entitled So sagt man das!, Wortschatz, Grammatik, and Aussprache sections. Activities immediately following these features are designed to practice recognition or to provide close-ended practice with the new material. Activities then progress from controlled to open-ended practice where students are able to communicate. Zum Lesen reading sections feature authentic German documents and literature and feature reading strategies. Throughout the Student Edition, students have multiple opportunities for test preparation, including additional grammar practice, Mehr Grammatik, and a four skills review, Anwendung, after every chapter. Within the review section is Zum Schreiben, which focuses on the student's writing skills. The majority of Chapter 11 is review while Chapter 12 is a full review chapter. The consistent format of this program allows students to gain the confidence necessary to learn a new language.

Publisher's Explanation of Reviewer's Comments:

Technology Strengths

on CD-ROM: easy to install and to add student names; Internet resource are great

Instruction & Assessment Strengths

all four language skills are addressed throughout, great supplemental ideas given in teacher edition.

Organization & Structure Strengths

Same format is used throughout, which helps get pattern down.

Resource Materials Strengths

The many different supplemental materials give a little bit for everyone.

Technology Comments

Student records are kept, but time spent on activities is not show. Students can also choose which activities that they would like to do, but the activities are the same for each person. Sound can only be controlled through the computer system itself. The information given is about the student CD-ROM program.

Equipment

Technology Weaknesses

On CD-ROM: Although it is easy to install names, it is time consuming to add each student and to come up with passwords; time spent on each item was not kept.

Instruction & Assessment Weaknesses

Some of the assessments within the books are not very clearly described. Grammar is addressed, but not in depth. Also, repetition of the same or similar topics gets boring for the students (ex. Healthy living and healthy eating), as they are on the same ideas for so long

Organization & Structure Weaknesses

Many of the pages look just alike, which may cause a lack on interest with students.

Resource Materials Weaknesses

it is some what awkward to go through each of the different items, although the One-stop planner and lesson planner do help that.
